**50 inch Reversible Cretonne—yard 45c.**

A popular quality for drapery slip covers. Its in a dark floral pattern that blends nicely with most furniture.

## BEAUTIFYING THE TOWN

In accordance with the town beautifying programme laid out by Lacombe, the Macdonald Nurseries this week planted trees from the corner of the avenue on the Edmonton-Calgary highway, to the town limits. This will make a great improvement to this thoroughfare.

## GRAVELLING THE EAST HIGHWAY

Work of gravelling the highway east of Lacombe was commenced last week, and the contractors, with a fleet of mammoth tractors, each capable of carrying five yards of gravel are making good progress. We learn that five miles of this highway will be paved with tar sand as an experiment. This new road will be a great boon to travellers east to the boundary, and it is expected that it will be completed this fall.

## A COSTLY DOG

A wee black pup with a short tail, was the cause of a prolonged court case on Friday last, and from the costs of the case incurred, this pup is now a most valuable animal, worth at least \$250 an ounce, at least that is about what it will cost someone when the costs are paid. The case arose when someone gave Mr. Rowland, one of our highly respected farmers, and black pup, with the request that he take it to his farm and rear it to doghood. Mr. Dobertstein it appears was annoyed by the animal bothering him at his blacksmith shop, and as he did not want the embryo dog, he took what he considered the best way of finishing a home for it. It turned out that Mr. Rowland thought he was the owner of the disputed pup, and thought so to the extent that he laid an information against Mr. Rowland for publishing the small piece of canine life. The case came up before Wilson Ritten, J.P., and the court-room was filled to capacity with witnesses, etc. In fact there were about \$250 worth of witnesses, two lawyers, the police force and the principals and their friends. After the case had wended its way through four hours of "evidence" from both sides, it was discovered that the dog did not belong to the informant in the case, and Justice Ritten dismissed the charge against Mr. Rowland, leaving Mr. Rowland to hold the bag, as it were. Mr. Wallace prosecuted, with Mr. MacCormick for the defence.

## TWO TRAINLOADS OF BEATTY ELECTRIC WASHERS FOR THE WEST

From their Hill St. Plant, Pergus, Beatty Bros. Limited shipped two solid trainloads of home laundry equipment, the largest shipment of its kind ever made in one day in the history of Canada. Three years ago this firm made history by shipping the largest trainload of hardware to Western Canada. The two trainloads left the Beatty plants on May 3rd, for distribution throughout Eastern and Western Canada, and were the third and fourth trainloads shipped by Beatty Bros. Limited during the past five years.

Beatty Bros. Limited was founded in 1874, over 55 years ago. Their plants now cover 10 acres. Since 1921 the Village of Pergus has enjoyed exceptional prosperity through the activities of the Beatty factories. There has not been a day lost to the workmen in the Beatty plants, and during the past winter they were exceptionally busy. In March, more Beatty Electric Washers were manufactured, than in any month in the history of the firm.

The two trainloads of Beatty washers shipped on May 3rd, indicate the demand for electric washers by the women of Canada. Evidently the Beatty enjoys an enviable reputation. This reputation is very pleasing to Canadians, as this firm is Canadian throughout. Management, capital, employees and inventors are purely Canadian. Practically every part of the Beatty washer is made in the three Beatty factories at London and Pergus, Ontario.

The two trainloads consisted of more than 4,000 Beatty washers, and over 4,000 sets of Beatty laundry equipment, which are given with these washers. This labour-saving equipment will lift the burden of washday from the backs of thousands of Canadian housewives from coast to coast.

The Beatty dealers for Lacombe are Morrison & Johnston. They received their share of the two trainloads to be delivered to their customers who buy Beatty Electric Washers in Lacombe and vicinity. Morrison & Johnston, Limited, have been successful Beatty dealers for many years.

## WHY THE MERCHANTS ARE GREY

From Beeton, Ont., "World" The following letter has been handed over by one of our town merchants, but we feel sure it is not a personal experience, as the farmers in old Huron county aren't made of this sort of stuff. But if it ever happened anywhere, its funny:

Dear Sir: I have your statement showing that I owe you \$79.50. I am enclosing a cheque for \$50.00, for which please send me a receipt. I am sorry that I cannot pay more at present as money is quite scarce right now. My living expenses are very high and I find it hard to get along. I will try and send another payment of \$50.00 when I sell my hay in July. I cannot pay you more at

this time as my daughter finishes college this year and that costs a heap. I might add we have had to hold a shed for the Ford so as to put our new car in the garage. I have promised the missus a trip to Niagara in the fall. I feel this is coming to her as she has been working hard. We cannot go sooner on account of having the house re-roofed. Some farmers around here are in a hard place financially, with the price of gasoline as it is at present. Clinton, Ont., "News-Record"

## STRANG'S ROTARY GRAIN CLEANER

Thos. M. Lorimer has accepted the position of General Salesman for the Strang Rotary Grain Cleaner and High Loader, for W.C.T.U. of Alberta and Saskatchewan.

With his long grain experience, Mr. Lorimer believes that the Strang Rotary Grain Cleaner will solve the grievances between the farmer and the elevator agent, with regard to dockage and grading, and will save the western farmer millions of dollars on freight and will make them millions of dollars by having all dockage of grain kept on the farm, for feeding stock.

The Strang Rotary Grain Cleaner Separator Attachment can be attached to any Separator, and easily attached to high or low elevator. Removes dockage and wild oats while you thresh, after being weighed. Saves time and labor every time you handle your grain. Save the dockage for your stock instead of costing you real money to get rid of it. Saves cost of hauling dockage to elevator, handling charges, and freight to Ft. William. It has three sizes of screens which are easily changed in about 15 minutes. Permits loading cleaned grain on wagon on either side or at back of your separator. A small super conveyor delivers the dockage to a separate spout.

## W.C.T.U. CONVENTION

The Second Convention of the Stettler District W.C.T.U. was held in Clive on May 8th and 9th. The meetings were well attended by the District officers, delegates, members and ministers of various churches.

Mrs. L. McKinney was present to address the convention and aid in discussions and the business of the District. Mrs. Grevelite, Calgary, the Provincial "Y" Secretary gave a splendid paper on the work of the Young People's Branch.

The reports from the local Unions were encouraging and especially so from the Consort district. The treasurer's report showed a good balance with which to start the second year. Our Round Table Conference, and the symposium, "Our Educational Work," brought us face to face with our obligations to the Young People and showed us the Educational value of the W.C.T.U. program.

There were two contests held, a medal and a musical. In the medal contest, put on by six contestants from Clive, Emma Huggan won the bronze medal. In the musical contest, Arthur Ross Jones of Consort, came first. The Clive Union presented the playlet "What Mrs. Do and Mrs. Didn't Do, Did." The musical numbers at the different sessions were most appreciated and showed fine talent in our district.

At a most enjoyable banquet given by the Clive Union, addresses of welcome were brought from the different organizations and churches of Clive, while other speakers brought to us a picture of "Canada, Yesterday, Today and Tomorrow." We were also glad to know that the Ministers present were willing to stand back of the Temperance cause. The following officers were appointed: Dist. Pres.—Mrs. Gaudin, Stettler;

Vice-Pres.—Mrs. Holmes, Consort. Cor. Secy.—Mrs. MacKen, Erickson. Rec. Secy.—Mrs. Wilson, Donaldson. Treasurer.—Mrs. Cooke, Clive. "Y" Secy.—Mrs. Pettit, Alton. L.T.L. Secy.—Mrs. Horsfall, Erickson. Supt. S.S. Work.—Mrs. Teas, Clive; Supt. Model Contest.—Mrs. A. E. Bones, Consort; Supt. Scientific Temp.—Mrs. S. Stettler. Supt. Little White Ribbons.—Miss Eunice Marshall, Stettler.

## CLIVE NEWS

Mother's Day was specially observed both at Steth and Clive Churches, large congregations attending Sabbath School and Church services. The Church was most beautifully decorated with flowering plants, ferns, lilies and carnations. The service was marked by appropriate readings and songs by the children and young people in loving memory of mother. The pastor, Rev. L. N. Huggan, preached on "A Mother's Religion." A study of Sacrifice, Patience and Love. Miss Phyllis Harn sang impressively "Where's Mother?" which everyone enjoyed.

Mrs. Jane Morton is having her large business block freshly painted. Messrs. Wm. Short and W. J. Sturge, doing the work.

The Conference of the United Church will be held this year in McDougall Church, commencing Tuesday, May 27th. Mrs. T. A. Brereton is the W.M.S. delegate and Carr T. Pangle and Percy Cull the Lay Delegates.

We are glad to report that Mr. Frank Knight is improving, after an almost fatal accident when on Friday last he was caught between the tractor and the disc while the engine was still running idly and suddenly went into reverse. He very narrowly escaped being crushed. He is in Lacombe hospital under Dr. Hynes care and is doing as well as can be expected.

The Young People's Society of Lacombe is presenting a play entitled "The Arrival of Kitty" in the Community Hall on Friday night, May 16th under the auspices of the Clive Y.P.S. The entire proceeds will go towards the completion of the Boys' and Girls' Camp, Meridian Beach, Gull Lake. Everyone is urged to assist in this most worthy project. The play is a most enjoyable one and should be greatly enjoyed. Admission 50c. and 25c. Come one! Come all!

## THE RAINBOW HAWK EYE CAMERAS

The Master Photo Finishers of America have arranged with the Eastman Kodak Co. for the sale of the Kodak Camera during the National Take-A-Picture Week, May 18th to 25th for the small price of 95c. each. The Camera takes pictures 2 1/4 by 3 1/4 and takes film No. 1-4 and is furnished in four colors: Blue, Green, Vermillion and Black. Every boy, girl and adult should avail themselves of this opportunity to have a Camera of their own. Get them at.

## The Lacombe Photo Studio and Associate Dealers

## MEETING AT SPRUCEVILLE HALL

A non-political meeting will be held in Spruceville, on Tuesday, May 20, under the joint auspices of the Lacombe and District Board of Trade, the Agricultural Society and Lake-side and Spruceville U.F.A. The speaker of the evening will be L. T. Chapman, Editor of the Nor-West Farmer, who will explain the details of the Master Farmer movement. All interested are invited to this meeting which is called for 8.00 o'clock.

### Trans-Canada Starts Season

The twelfth consecutive season of the Trans-Canada Limited, Canadian Pacific flyer de luxe across the Dominion will commence when the train leaves the Windsor station, Montreal, at 8:45 p.m. daylight time, Saturday, May 17, next. Canada's Permanent head boards divide each of the eight sections from Montreal and Vancouver in 88 hours, fifteen minutes and return in 90 hours, fifteen minutes. In the period of its running between these points the Trans-Canada Limited will make 260 trips up to September 27.

Eight million dollars has gone into the cost of

### Federal and Provincial

Difficulties not greatly different to our own are said to be meeting Mr. Scullin, prime minister of the Australian Commonwealth, toward a bill for the abolition of state legislatures of which there are six—New South Wales, Western Australia and Tasmania. If Mr. Scullin achieves what is said to be his intention, all Australia will be governed from Canberra and the effect, we must suppose, will be very similar to that of a Canada governed entirely from Ottawa.

The difficulties which have led the Australian premier to canvass the possibilities of abolishing the federal system of government are, as indicated, much like some known to us in this country. Just as the British North America Act divides authority between the federal and provincial governments, so does the constitution of the Australian Commonwealth. And just as the British North America Act leaves room for differences of opinion as to the intention of the fathers of our confederation, so does the constitution of Australia. And just as there is difference of opinion in Canada whether, under the British North America Act, labor legislation is an affair for the Dominion or the provincial parliaments, so there is contention over precisely the same point in Australia. Mr. Scullin has been rather more ingenious than Mr. King in finding a solution. He proposes to abolish the state legislatures altogether.

One can imagine without a great deal of difficulty the cry that would arise to the heavens that are over Canada should Mr. King make any such proposal at Ottawa—and he has had just as much provocation as his Australian colleague and more. Unless we misjudge the Australians, they are just as state-conscious as an province-conscious as we and what self-respecting Tasmanian, for instance, would want to merge his interests and his identity with those of some bearded colonial from West Australia?

We can, of course, only judge Australia by the trails we have in common with such of them as we have met, but we can only imagine that Mr. Scullin's programme will not make very much progress in the Commonwealth parliament. In Canada the tendency is toward greater and ever greater decentralization. The Dominion government has turned over to us our natural resources. They have given us at least a consultative interest in immigration policies. We in Alberta are even dreaming of a new province at some future time, perhaps distant, in the Peace River just as British Columbians see a new province to their north on the people of Manitoba vision a northern empire washed by the shores of the Hudson Bay. From what we know of Canadians and from what we know of Australians have in common with us, we are inclined to think that Mr. Scullin would be well advised to drop his mad experiment before it goes any further.

### Disarmament and Security

The five-power conference having come to grief, there is a natural tendency to make the most of the three-power treaty which limits the construction of all classes of ships and accelerates the scrapping of battleships, in itself, a useful piece of work. It marks a great advance upon the narrow-minded and obstinate insistence upon national "needs" and "rights" which frustrated the similar effort three years ago at Geneva. Grateful though we must be for that, it is of more importance to understand the reasons and consequences of the failure to include France and Italy in this scheme of naval limitation. The first thing to be noted is that this failure sets a limit (perhaps already reached) to the extent to which American, Great Britain and Japan can reduce their armaments. Indeed, the three-power agreement will expressly reserve rights to increased construction should present naval plans of France and Italy materialize. It is not so much a question of how much further the three powers will be able to carry disarmament in 1938 as whether they may not be forced back on their steps before then by the growing competition of the two Mediterranean powers. As between the Italian claims to parity with France and the French claim to excess of nearly a quarter of a million tons over Italy, there is not much to choose. Each country is, in effect claiming to be superior to the other country in the Mediterranean. Neither claim is obviously more unreasonable than the other. It is also strong enough to defeat its enemies, should it happen to be the attacker. The best escape from this dilemma is to "cultivate each neighborly relationship to the extent relative strength of each country's navy no longer seems a matter of life and death. The three power agreement has been rendered possible in this way by comparative indifference of Great Britain to the size of America's navy. It is only because France and Italy are not quite on the same terms of mutual trust that a five-power agreement has been impossible.

### BANK OF MONTREAL ISSUES VALUABLE HANDBOOK FOR THIRTY HOUSEWIVES

Did you know that meats and vegetables can now be canned and put away for winter use as easily and fully as fruit? This is one of the most useful and remarkable discoveries of recent years, and the process is fully described in a handbook covering the whole field of home canning now being issued for free distribution by the Bank of Montreal. Few people realize, perhaps, the progress that has been made in recent years in storing away the products of the summer season for use in winter. There are those who can remember when jam was the only preserve. Then came the preservation of the whole fruit in syrup. It was only four years before the way when methods were discovered for the canning of non-acid vegetables and meats, and now there is hardly any perishable food which cannot be stored away in times of plenty for use when the need arises.

The question as to whether or not canned products are healthful naturally arises. This booklet dispels any doubt there may be on that matter.

Everybody knows nowadays that a plentiful supply of fruit and vegetables is necessary to a healthy diet. Farm folks, however, have no quick and easy access all the year round to fresh products. They usually either have to go without fruit and vegetables in winter, which makes for monotony of diet and is expensive from the health standpoint, or they have to buy fresh and canned fruits and vegetables which generally results in going without. The better way, as described in this booklet, is to provide a supply of home grown, sliced and canned products, which yields good returns in money and in family health and incidentally proves mighty convenient, since ready-to-serve food is always on hand.

There are directions for both cold meats and hot meats, and also not only for the ordinary methods of preserving by heat, but also for the use of that valuable little invention, the steam pressure cooker, which is especially helpful in the canning of meat and vegetables and is useful all the time for cooking.

Free copies of the booklet may be obtained at the local branch of the Bank of Montreal.

### WEEDS... the arch-enemy of Canadian Agriculture

"If my fields had been free of Wild Oats and Mustard last year," writes an Alberta farmer, "my extra crop profits would have enabled me to buy a car, two suits of clothes, re-decorate my house and add a hundred dollars to my bank account. This year I'm going to clean up on at least two fields."

The attitude of this Alberta farmer is commendable. If all farmers attack weeds vigorously, their efforts will be rewarded many times over in better crops, reduced costs and increased profits. To help them do this Imperial Oil Limited is publishing an interesting book which contains all the latest facts, figures and information pertaining to the weed problem.

This book—"Weed Control"—is full of constructive advice and suggestions. It explains in plain, simple language how to tackle the job of weed eradication most effectively. It has been compiled by The Honorable Duncan Marshall, former Minister of Agriculture for Alberta, and each chapter describes the experiences and processes adopted by weed

authorities, experimental farms and farmers who have successfully fought weeds throughout the Dominion.

"Weed Control" is a companion volume to "Field and Farm Yard", which Imperial Oil distributed to more than 65,000 farmers in 1929. By filling in and mailing attached coupon, you will be assured of receiving your free copy.

## Let Us Prove Our Claims

## for the John Deere Tractor

There is no doubt in our minds that the John Deere is the tractor best suited to your farm needs.

There's only one place for us to prove this to your own satisfaction—that's right out on your own farm.

We want you to see with your own eyes the tremendous amount of power this light-weight tractor can deliver. We want you to run it yourself—so that you may

know how simple and easy it is to operate—how it responds instantly to every demand, whether at the draw-bar or on the belt.

The John Deere Tractor has established records everywhere for less fuel and oil consumption—for low upkeep—for continuous, uninterrupted service month after month, year after year—records difficult for other tractors to equal.

We know what the John Deere Tractor will do. We want you to know it, too. Give us the opportunity to show you.

## Western Farms Paid 3 Million Dollars Freight on Weeds

To haul the weed seeds cleaned out of grain shipped by the farmers of the three prairie provinces to Fort William and Port Arthur last year would require no less than 180 freight trains, each of 60 cars, while the sum that has been paid in freight on these seeds by the farmers amounts to \$3,000,000.

These figures are not guesswork, but are based on Dominion government statistics, according to Major H. G. L. Strange, of Fern, Alberta. "Ninety-five per cent of all weeds on the farm are sown by the farmer himself through the seed drill," said Major Strange, "and the tragedy of it is that most farmers think they are sowing good seed. Seed drill surveys on the prairies had shown that 58 per cent of all seed grain being used would be placed in the 'rejected' class and would not be permitted for sale by a seed house, while one man in Saskatchewan was by test found to be sowing 500,000 weed seeds to the acre."

## HUGE QUANTITY OF GRAIN IN DANGER

Owen Sound, May 9.—For the past fourteen days science has been quietly waging a battle against a scourge which is reported to have assailed grain stored in seven million bushel grain elevators at Port McNicoll, Ont.

According to advices received here a parasite, described as a species of weevil has developed in the stored grain, while the problem of over-heating of the wheat in the huge bins, has also been encountered.

In an effort to eradicate the more serious menace of destruction through the incursions of the parasite, the resources of the United States department of agriculture have been enlisted. During the past two weeks the Washington experts have been applying a secret process in a fight against the pest. The treatment is being utilized for the first time on the American continent. Among the experts are Loral Duval, chief inspector of the New York produce department, and James Lucy of Buffalo.

Dry ice, formed by carbon dioxide, is the principal substance used. With it is placed ethylene gas and the two are sprayed on the grain as it runs into an empty bin. One and a half million bushels have already been treated in the 14-day old war against the weevil.

## A SPRING SONG

The "winter of discontent" (as old Bill Shakespeare once said), is over and we now welcome another spring—changeable and provoking though it so often proves. It can well be dubbed the season of contrasts. It is the time of bubbling youth, joy and mating happiness. It is also associated with coughs and chills, sulphur and molasses, fertilizers, seed catalogues and "suckers runnin' in the creek." The air is filled with the sweet and cleanly smell of leaves and green grass, of blossoms and all sorts of growing things; also with the demands of our wives and daughters for new rainment. The sienna-hued hand-organ-grinder, with his hardy-gurdy in case on the streets of our cities, and the rumble of the ice-wagon has supplanted the creak of the coal cart. The railway navy has burned the dead grass along the railway tracks in the country, and the town dweller has spread up his backyard garden. It is the time of fond hopes, of beauty and love. It also rains like hell at times. The wild strawberry will soon be ripening on the warm hillside and the hawk-buzzard spreads its sweet fragrance in "the fields beyond." Down in the swamps Mr. and Mrs. Mosquito, just newly married, have commenced an intensive production campaign and millions of their diabolical little brats will soon be tormenting the lives and legs of those who "dwell near nature's heart." It is a season of strong extremes—of hot days and chilly nights—of bright sunshine and spitting showers—of early snowdrifts—and occasional snow storms—of the lifting liquid melodies of the song birds and the ribald raucous cries of the crows and grackles. It is about the meanest, dirtiest and most uncertain time of the year, but darn its peaky hide—we like it because of its promise for more glorious days to come.

—Canadaian

## THE RIGHT INSCRIPTION

A motorist touring Wales was struck and sometimes amused by the inscriptions in Welsh which he saw in various parts of the country.

One morning in a hotel when the attendant was showing him to his bath, the visitor paused before the inscription on the mat.

"Tam Htab," he mused; "I suppose that's Welsh for 'Welcome.'"

"No, sir," said the attendant, "the bath mat happens to be upside down."

A jolly old sailor named Bicester, ran miles for his ship but he miscester when he got to the quay. He was lame in one knobby. And had on each heel a big bilcicester.

## BOARDERS WANTED

Several furnished rooms to rent. Close in. Apply Mrs. Hunter for particulars.

## Here and There

(S15) The trans-Atlantic speed record between the ports of Liverpool and Saint John, was broken recently by the arrival of the latter port of the Canadian Pacific liner Duchess of York, after a crossing from Liverpool which took six days, 22 hours and 14 minutes. According to local shipping men this is the first time in the history of the port that a crossing has been made in under seven days.

Twelve thousand pounds of Quebec maple sugar and syrup were handled daily during the latter part of April by the Canadian Pacific Express Company to points overseas, the Prairie Provinces and Ottawa, constituting what is claimed to be a record movement of this dainty. Outside commercial uses, demand for this product arises on the part of individuals who make a practice of shipping it to relatives and friends in the Old Country and the west of Canada.

Close on six million dollars were spent on New Brunswick roads during 1929, being reconstruction of 221 miles of main trunk highways and 1138 miles of secondary roads. This is regarded as the most extensive programme of highway construction, improvement and maintenance ever undertaken in the Province.

Snapped in Hyde Park, London, England, recently, Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, was photographed kissing his cousin, the small daughter of the Hon. Mrs. Arthur Howard. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

Organized a few years ago by a group of farmers' wives with Mrs. Bertha Holmes, of Asquith, Sask., president, the Saskatchewan Poultry Pool handles about 75 per cent of the entire egg production of the province. Last year the Pool turned over \$2,840,184, eggs valued at \$540,000; \$23,743 pounds of dressed poultry valued at \$184,000, and \$3,561 pounds of live poultry at \$6,000, or a total turnover of \$730,000 for the year.

After 15 years of seed planting, the experimental work of the Canadian Government Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the prairie provinces. Of these varieties two have been graded "very good," and four "good."

The first "Improved Sire Area" in Manitoba has been established in the municipality of Roland, according to announcement made by Albert Prefontaine, Minister of Agriculture of the province. Under this scheme all bulls, boars and rams must be inspected and approved before owners are permitted to retain them for service in the Area.

Over \$22,000,000 have been invested in manufacturing enterprises in the province of Alberta and they are paying about \$14,000,000 yearly in salaries and wages to over 110,000 employees. A similar rapid development in industrialism in the sister provinces of Manitoba and Saskatchewan is to be noted. Combined, the three provinces have now a yearly output of manufactured goods in the neighborhood of \$325,000,000.

## For Varicose Veins

To get prompt relief, bathe the affected parts with hot water once daily, apply Absorbine, Jr., two to three times daily for first two weeks, then every morning thereafter. Each night apply a cloth saturated with a solution of one ounce Absorbine, Jr., to one quart water. Leave it on overnight. Absorbine, Jr., is made of oils and extracts which, when rubbed into the skin, are quickly absorbed by the pores and stimulate blood circulation. Greases and ointments are not at your drug store. I WILL that can't be broken

An EXPERT Executor without cost

A LIFE assurance policy is a will that needs no lawyer to explain and no judge to interpret.

It is clear, final, unbreakable.

If, instead of being paid in a lump sum, the proceeds of your policy are left with the Sun Life Assurance Company of Canada, you obtain, free of cost, the most expert fiduciary service in the world for your dependants.

Your assurance estate is conserved to meet obligations not fully matured at your death; to care for your wife; and to educate your children.

The earnings and any part of the principal can be paid over at regular designated intervals as desired.

Your modest funds are merged with those of a great corporation and share in the wonderful earnings from that Company's investments.

Your affairs can't be muddled by an incompetent neighbour executor.

NO RISK • NO WORRY • NO EXPENSE

The best way to treat an estate, and the best way to conserve an estate, is by life assurance.

Consult a Sun Life representative for particulars.

8th July Wood River vs. Red Deer.  
9th July Alix vs. Lacombe.  
10th July Red Deer vs. Wood River.

## MEADOWBROOK NEWS

Mr. and Mrs. John Eadie and family of Kinsley, were Sunday visitors in this district.

The Social Evening Club held their May meeting at the home of Mrs. Gillingham. A large crowd was present and an enjoyable evening spent. Cliff Long has commenced hauling cream to Lacombe Creamery. If the little showers we have been having in the past two weeks continue, prospects for a good crop this fall are promised.

Mr. and Mrs. J. Long celebrated their 25th wedding anniversary not long ago.

The Ladies Aid met last Thursday at the home of Mr. and Mrs. F.

Haseby with 7 members present. The next meeting is to be held at the home of Mr. and Mrs. Gustafson on June 12th.

Mr. Brett started church services here last Sunday with a Mother's Day programme and also the Christmas of two little ones, William Howard Kinley, and Blanche Irene Long. A large congregation was present, which we hope will remain the same every Sunday.

Mr. Stewart, a Camrose Normalite was teaching in our school for a week.

In another week the majority of the farmers will have finished putting the crop in, some being finished now and so are clearing and breaking land.

ST. CYPRIAN'S W.A.

A tea at the home of Mrs. Jones, Edmonton Trail will be held on May 28th from 3 to 6 p.m. This is a unique tea. The price is 50c. and to every donor will be given a parcel of good value.

**ST. ANDREWS UNITED CHURCH**  
Rev. R. B. Layton, Minister.  
Services at 11 a.m. and 7:30 p.m.  
The Mother's Day services were well attended, the seating capacity in the evening being reached.

The W.M.S. will meet on Tuesday at 2 p.m. at the home of Mrs. Herbert Carruthers. The Y.W.A. at the home of Mrs. Wilson at 8 p.m. The Mission Band on Monday at 4:15. At Lakeside on Sunday at 2:30 the Mother's Day Program will be followed.

Married at the manse on May 8th, George Glenn of McEwen, to Mrs. Ethel Welch, of Sedgewick by Rev. R. B. Layton.

**REMEMBER THE DAY WITH SNAP SHOTS**  
"Take A Picture Week"  
May 18th to 25th.  
Special Sale No. 2 Hawk Eye Cameras at 85c.

This is a splendid opportunity for all the children who did not qualify for a free anniversary camera. We will be glad to show the children how to take pictures.

## BASEBALL ORGANIZED

At a very enthusiastic meeting held on May 6th, the Lacombe Baseball Club organized for the coming season. The meeting was well attended giving every promise of interest and support.

Officers nominated were:  
Hon. Pres., Mayor G. T. Jackson.  
President, Mr. A. D. Hay.  
Vice-Pres., Mr. S. Murray.  
Treasurer, Mr. P. Danner.  
Secretary, Mr. T. Edmunds.  
Executives chosen were:  
Mr. W. B. Poopa, (Chairman).  
Mr. L. P. Minkler. Mr. E. J. Edgington; Mr. J. Taylor; Mr. S. M. Murray.

Mr. R. B. Thompson was unanimously chosen for Manager. Mr. Thompson has managed many a baseball team for Lacombe in the past, while the sport was at its height of popularity in the west, 1919, 1920, 1921, 1922 and 1923 and his experience will be of much benefit to the club.

Grounds Committee chosen were:  
Mr. A. Dwan, Mr. E. Jones, Mr. F. Brooks, Fr. B. Gwyne.

The formation of a league was discussed, but no definite decision was arrived at, it being suggested that enquiries be made of the various surrounding clubs for prospects. Eckville, Benalto, Rimley and Bentley have formed a league and have extended an invitation to Lacombe. The majority of the members were in favor of forming with Red Deer, Ponoka, Clive and Wetsakwin, negotiations are under way with these clubs and we are anxiously awaiting a verdict.

Last year's uniforms of grey with black stripes are in good condition. First practice is expected to be held this week, Manager Thompson will call first practice if the weather turns a little warmer, cold weather being injurious to the throwing arm. Arrangements are being made for an exhibition game with Clive for May 24th to start sharp at 3 o'clock in the afternoon. Clive has proved a strong opposition during the last two years, but with the new and promising material to choose from, we are now in a position to pay back old scores.

It is earnestly hoped that we have a large turnout for our first game of the season, as it will be a very interesting encounter and will give Manager Thompson and his boys an opportunity to show the high class brand of ball to be played during the season.

If you want the latest in Golf Sticks, see Morrison & Johnston, Ltd.

## Apple Blossom Dance

With the arrival Spring in all its splendor, what could be more appropriate to the occasion than an Apple Blossom Dance. The Anglican Young People's Association are now commencing arrangements for their Apple Blossom Dance, and from reports, it will be one of the most beautiful, if not the most beautiful dance of the season. Every member of the Association is working night and day in an endeavor to make this an event long to be remembered in Lacombe. Millions of apple blossoms will adorn the hall transforming it into a magnificent bower of flowers and foliage. No effort is being spared to make this a gala affair, and it will be something entirely new to dancers of Lacombe. Novelty lighting will also add to the beauty of this dance. Music for the occasion will be supplied by the "Star" five-piece orchestra, from which there is none better in Central Alberta. This orchestra has an enviable reputation, and has been rehearsing frequently, and on the evening of the 23rd will present to dance-lovers of Lacombe the very latest dance numbers of the day. Besides the new and snappy fox trot numbers they have on their program many old, favorite waltzes which will undoubtedly appeal to the older dancers. No detail has been omitted for this dance—a real good time is assured all who attend. The dance will commence at 9 o'clock on the dot and supper will be served at mid-night after which there will be an hour and a half more of dancing. Be there on time and enjoy every minute of this grand dance.

## TEN ACRES OF ALFALFA ON EVERY FARM

Mr. Editor:

Many cars of alfalfa and other baled feeds were shipped out of this district during the past winter. This in my humble opinion, is not necessary, when we are so able to grow the feed that is required.

This district is well adapted to the growing of this great Legume, rightly called "The King of Fodders," if only the right kind of seed is planted, that is, northern grown. If southern grown imported seed is used which is not acclimatized, it usually winter kills the first season.

Alfalfa makes the very finest of Hog Pasture. It is said that a hog's idea of Heaven is a field of alfalfa. Mature hogs will do well on alfalfa hay and a little grain, thus making it the cheapest hog feed known. As a milk producer it is second to none, being better than bran, according to Government tests. Horses relish it, and get fat, often too fat, if fed alfalfa alone. While for sheep it makes an ideal feed, attested by the fact that the regions of the West are full of sheep feeding quarters where alfalfa is grown. Poultrymen cannot speak too highly of its qualities, especially for laying hens.

Alfalfa as a feed for all kinds of livestock cannot be beaten. It will produce more hay even in a dry year than any other forage crop, owing to its deep root system. It will eradicate noxious weeds, and what is perhaps more important in this district promote mixed farming methods. It is an accepted fact that where alfalfa is grown, prosperity always follows.

I am sure that we are all interested in maintaining the high state of fertility of the soil of our splendid district, of which we can truly say there is none better in Western Canada. But our system of growing White Straw Crops continually, will eventually wear out the best of land until a profitable crop cannot be grown. It is regrettable to see that some of our land has already reached this point.

In order to promote the production of this crop, I should be very glad to go to a hay meeting, and speak on the growing of Alfalfa. Let our Slogan be "Ten Acres of Alfalfa on Every Farm."

Thanking You, Mr. Editor for this space,  
Yours truly,  
TOM WILKES, Lacombe.

Tickets for the Anglican Young People's Association, Apple Blossom dance on May 23rd can be secured from any member of the Association. Get yours soon.

## Successful Recital

A recital by pupils of Mrs. F. H. Reed was given in the United Church on Friday evening, May 9th. The large audience was loud in praise of the great improvement in the work of the students since their appearance in recital a year ago. The following took part: Katherine Allin; Betty Jackson; Grace McLeod; Vivian Taylor; Isabelle MacKenzie; Robert Layton; Mary MacKenzie; Robert Layton; Mary McLeod; Jean Balcher; Patsy Hay; Mary Moore; Margaret Aldwinckle; Jessie Hay; Dorothy Sweet; Donald McCormick; Muriel Puffer; Thelma Rad, Red Deer; Florence Brett, Morningstar; Phyllis Henn, Clive; and Helen Barbour. The advanced numbers of Miss Henn, who is taking her L.A.B. piano and theory examinations in June next, and Miss Barbour, who passed her A.T.C.M., June, were loudly applauded.

A special feature on the programme was the Kitchen Symphony of 15 pupils, dressed as cooks, and using kitchen utensils as instruments. The accuracy of the playing of the children in the orchestra showed their complete understanding of time and rhythm.

The platform was beautifully decorated by Mr. Berggren with spring bouquets, hyacinths and daffodils—Mr. Hearnsey and son had placed lamps throughout the decorations and as footlights of the platform. Madame Boismontault of Edmonton, delighted her audience by a group of songs in English, and later by singing in old French costume, three French folk songs, which even more pleased the audience, who caught the spirit and rhythm of her interpretations. In all of her numbers the beautiful qualities of Madame Boismontault's rich contralto voice gave proof of her talent and training.

Little Grace McLeod, on behalf of the pupils, presented Mrs. Reed with a beautiful bouquet of roses and carnations.

**LEST WE FORGET CLUB  
ENTERTAINMENT**

The Bentley players under the management of Mr. F. Thorp, are giving their entertainment "Bought and Paid For," in the Grand Theatre on Monday, May 26, in aid of the Benevolent Fund of the Lest We Forget Club. This is considered the best play the Bentley Dramatic Society has ever produced. Buy your tickets early. Admission 50c.

Congoleum Bugs in all sizes and latest patterns—Morrison & Johnston Ltd.
